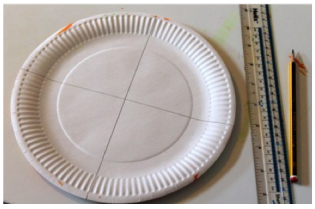
PAPER PLATE EASTER BASKET

You will need:

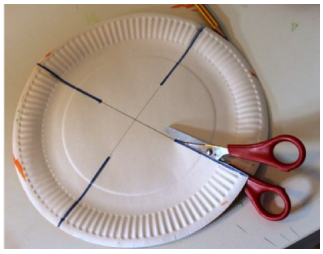
- Paper plate x 2
- Scissors
- Glue / Cello-tape
- Pens / Paint
- Ruler
- Pencil

Step 1:
Turn your plate upside down, and start decorating it with your pens or paint. You can do whatever design you like!

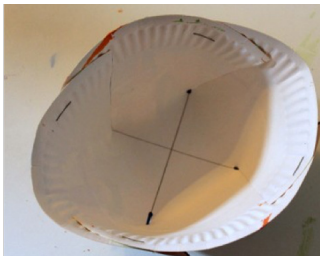


Step 2:
Once your design is dry, turn you plate over, and draw 2 lines to divide the plate into 4 parts, using your ruler and pencil.

Step 3:
Next, you need to cut along these lines, but not all the way to the middle! We have highlighted on the photo how far in you should go.



Step 4:
To make the basket, you need to fold the sections over, so the overlap the one next to them, and secure with glue or cello-tape.



Step 5:
You will use the second paper plate to make the basket handle. Cut off half of the rim to give you an arch and stick it in the inside of your basket.
